

Special events, cultural awareness:

Languages are an exciting component to the curriculum that fosters confidence, security and confidence. Children will have lots of opportunities to explore other cultures. We celebrate the European Day of Languages; and also look at festivals, celebrations, cultural activities and sporting events, such as the Tour de France. Children have the opportunity to read rich French texts within their lessons.

In year 6 there is the opportunity to go on the French trip, where children stay at a PGL education centre and take part in many exciting day trips and activities, practising their French.
