

Relationship and Sex Education Policy

Trust Principles

To embrace the challenges of creating a happy and successful adult life, pupils need knowledge that will enable them to make informed decisions about their wellbeing, health and relationships and to build their self-efficacy. Pupils can also put this knowledge into practice as they develop the capacity to make sound decisions when facing risks, challenges and complex contexts. Everyone faces difficult situations in their lives. These subjects can support young people to develop resilience, to know how and when to ask for help, and to know where to access support.

The focus in primary school should be on teaching the fundamental building blocks and characteristics of positive relationships, with reference to friendships, family relationships, and relationships with other peers and adults. This starts with pupils being taught about what a relationship is, what friendship is, what family means and who the people are who can support them. From the beginning of primary school, building on early education, children should be taught how to take turns, how to treat each other with kindness, consideration and respect, the importance of honesty and truthfulness, permission seeking and giving, and the concept of personal privacy.

The Trust understands the primary role in children's relationship education lies with parents and carers. We wish to build a positive and supporting relationship with the parents of children at our schools through mutual understanding, trust and co-operation. In promoting this objective, we:

- inform parents about the school's relationship education policy and practice.
- answer any questions that parents may have about the relationship education of their child;
- take seriously any issue that parents raise with teachers or Trustees about this policy or the arrangements for relationship education in the schools

1. Context

All schools must provide a curriculum that is broadly based, balanced and meets the needs of all pupils. Under section 78 of the Education Act 2002 and the Academies Act 2010, a PSHE curriculum:

- Promotes the spiritual, moral, cultural, mental and physical development of pupils at the school and of society, and
- Prepares pupils at the school for the opportunities, responsibilities and experiences of later life.

This policy meets the requirements that schools publish a Relationships and Sex Education policy and does this within the wider context of Personal, Social and Health Education. This policy applies to all pupils, including those in EYFS.

2. Our aims

At Northwick, we believe that Personal, Social and Health (PSHE) education is an important and necessary part of all pupils' education and PSHE is an integral part of our school life. We value PSHE as one way to support children's development as human beings, to enable them to understand and respect who they are, to empower them with a voice and to equip them for life and learning. It is upon this belief that we have developed a PSHE curriculum to equip pupils with a strong understanding of risk and with the knowledge and skills necessary to make safe and informed decisions.

3. PSHE

At Northwick Manor Primary School, we teach Personal, Social, Health Education as a whole-school approach to underpin children's development as people and because we believe that this also supports their learning capacity.

We use the Jigsaw Programme which offers us a comprehensive, carefully thought-through Scheme of Work which brings consistency and progression to our children's learning in this vital curriculum area.

Our PSHE curriculum contributes significantly to the school's Safeguarding and Equality Duties, the Government's British Values agenda and the SMSC (Spiritual, Moral, Social, Cultural) development opportunities provided for our children.

Our PSHE policy is informed by existing DfE guidance:

- [Keeping Children Safe in Education](#) (statutory guidance)
- [Respectful School Communities: Self Review and Signposting Tool](#) (a tool to support a whole school approach that promotes respect and discipline)
- [Behaviour and Discipline in Schools](#) (advice for schools, including advice for appropriate behaviour between pupils)
- [Equality Act 2010 and schools](#)
- [SEND code of practice: 0 to 25 years](#) (statutory guidance)
- [Alternative Provision](#) (statutory guidance)
- [Mental Health and Behaviour in Schools](#) (advice for schools)
- Social, emotional and mental wellbeing in primary and secondary education. (NICE guidance)
- Promoting and supporting mental health and wellbeing in schools and colleges (guidance for schools and college)

- [Preventing and Tackling Bullying](#) (advice for schools, including advice on [cyberbullying](#))
- [The Equality and Human Rights Commission Advice and Guidance](#) (provides advice on avoiding discrimination in a variety of educational contexts)
- [Promoting Fundamental British Values as part of SMSC in schools](#) (guidance for maintained schools on promoting basic important British values as part of pupils' spiritual, moral, social and cultural (SMSC))
- [SMSC requirements for independent schools](#) (guidance for independent schools on how they should support pupils' spiritual, moral, social and cultural development).

The Jigsaw Programme is aligned to the PSHE Association Programmes of Study for PSHE.

4. Statutory Relationships and Health Education

The Relationships Education, Relationships and Sex Education and Health Education (England) Regulations (updated July 2025) make Relationships Education and Health Education statutory for all primary-aged pupils. These subjects must be taught in all maintained schools, academies, independent schools, maintained special schools, non-maintained special schools, and alternative provision settings.

We deliver statutory Relationships and Health Education within our comprehensive PSHE programme, using materials from Jigsaw PSHE 3-11. This provides children with a carefully sequenced, age-appropriate curriculum that meets all statutory requirements whilst also developing wider personal and social capabilities. Our PSHE curriculum also supports our safeguarding responsibilities as set out in Keeping Children Safe in Education and the Prevent Duty, helping children to recognise concerns, stay safe online and offline, and seek help when needed.

Our curriculum addresses all statutory requirements including:

- Families and people who care for me
- Caring friendships
- Respectful, kind relationships
- Online safety and awareness
- Being safe
- Mental wellbeing
- Internet safety and harms
- Physical health and fitness
- Healthy eating
- Drugs, alcohol, tobacco and vaping
- Health protection and prevention
- Basic first aid
- Developing bodies (including puberty as part of Health Education)

A detailed mapping document showing how the Jigsaw programme covers every statutory outcome is available to view on request and can be accessed in Appendix 1.

Relationships Education

Relationships Education is compulsory for all primary-aged children and there is no right of withdrawal. It focuses on teaching children the fundamental building blocks of positive, respectful relationships with family, friends, peers and adults.

By the end of primary school, our children will understand:

- Families and people who care for me - That families come in many forms and all can provide love, security and stability; the characteristics of healthy family life; how to recognise unhealthy family relationships and seek help; marriage and civil partnerships as legal commitments.
- Caring friendships - How friendships contribute to happiness and security; characteristics of healthy friendships including mutual respect, trust, loyalty and kindness; how to recognise and navigate friendship difficulties; how to make and maintain positive friendships.
- Respectful, kind relationships - The importance of paying attention to others' needs; setting and respecting boundaries; communicating effectively and managing conflict with kindness; the importance of respect and self-respect; different types of bullying and how to respond; understanding stereotypes and how to challenge them.
- Online safety and awareness - How to behave respectfully online; critically evaluating online relationships and information; understanding privacy and personal information; recognising and reporting online risks; age restrictions for social media; understanding that content online can be inappropriate or upsetting.
- Being safe - Understanding appropriate and inappropriate boundaries; concepts of privacy and consent; that each person's body belongs to them; how to recognise when relationships are unsafe; how to respond to concerning adults; how to report abuse and seek help with confidence.

The expected outcomes for each of these elements can be found further on in this policy. The way the Jigsaw Programme covers these is explained in the mapping document: Jigsaw 3-11 and Statutory Relationships and Health Education.

It is important to explain that whilst the Relationships Puzzle (unit) in Jigsaw covers most of the statutory Relationships Education, some of the outcomes are also taught elsewhere in Jigsaw e.g. the Celebrating Difference Puzzle helps children appreciate that there are many types of family composition and that each is important to the children involved. This holistic approach ensures the learning is reinforced through the year and across the curriculum.

Health Education

Health Education is compulsory for all primary-aged children and there is no right of withdrawal. It focuses on supporting children to make informed decisions about their health and wellbeing.

By the end of primary school, our children will understand:

- Mental wellbeing - The normal range of emotions; how to recognise, talk about and manage feelings; simple self-care techniques; that mental health challenges are common and can be supported; where and how to seek help when needed.
- Internet safety and harms - The benefits and risks of internet use; rationing screen time; recognising and displaying respectful online behaviour; age restrictions on games and apps; being discerning about online information; where to report concerns.
- Physical health and fitness - Benefits of an active lifestyle; building regular physical activity into routines; risks of inactive lifestyles; when to seek health support.
- Healthy eating - What constitutes a healthy diet; principles of healthy meal planning; risks of unhealthy eating including impacts on teeth and weight; impacts of alcohol on health.
- Drugs, alcohol, tobacco and vaping - Age-appropriate facts about legal and illegal substances and associated risks, including the risks of nicotine addiction.

- Health protection and prevention - Recognising early signs of illness; sun safety; importance of good quality sleep; dental health and oral hygiene; personal hygiene and germ spread; facts about vaccination and immunisation.
- Personal safety - Recognising hazards and reducing risks; road, water and rail safety; when and how to seek help in emergencies.
- Basic first aid - How to make emergency calls; dealing with common injuries including head injuries.
- Developing bodies - Understanding growth and body changes during adolescence; correct names for body parts; facts about the menstrual cycle including physical and emotional changes (noting that whilst average age of menstruation is 12, it can begin from age 8, so we teach this content before girls experience menstruation).

The expected outcomes for each of these elements can be found further on in this policy. The way the Jigsaw Programme covers these is explained in the mapping document: Jigsaw 3-11 and Statutory Relationships and Health Education.

It is important to explain that whilst the Healthy Me Puzzle (unit) in Jigsaw covers most of the statutory Health Education, some of the outcomes are taught elsewhere in Jigsaw e.g. emotional and mental health is nurtured every lesson through the Calm me time, social skills are grown every lesson through the Connect us activity and respect is enhanced through the use of the Jigsaw Charter.

Also, teaching children about puberty is now a statutory requirement which sits within the Health Education part of the DfE guidance within the 'Changing adolescent body' strand, and in Jigsaw this is taught as part of the Changing Me Puzzle (unit).

Again, the mapping document transparently shows how the Jigsaw whole-school approach spirals the learning and meets all statutory requirements and more.

In regard to the teaching of Sex Education in primary schools, many schools currently teach Sex Education (which goes beyond the content within the mandatory National Curriculum for Science), and it is strongly recommended by the Department for Education that all primary schools should have a sex education programme that is tailored to the age and maturity of the pupils. At Northwick, we teach Relationship and Sex Education (RSE) meeting the statutory requirements for primary schools and respecting government guidance as outlined above.

We include the statutory Relationships and Health Education within our whole-school PSHE Programme.

To ensure progression and a spiral curriculum, we use Jigsaw, the mindful approach to PSHE, as our chosen teaching and learning programme and tailor it to children's needs. The mapping document: Jigsaw 3-11 (Appendix 1) and statutory Relationships and Health Education, shows exactly how Jigsaw and therefore our school, meets the statutory Relationships and Health Education requirements.

5. Our Relationship and Sex Education (RSE) curriculum and its delivery

We have developed the curriculum in consultation with parents, pupils and staff, taking into account the age, needs and feelings of our pupils. It is reviewed regularly, and it is adapted for each cohort and their needs and experiences. The content of our curriculum and the timing of when content is taught is set out below.

Relationships Education and Sex Education are delivered through our PSHE curriculum. Together, these areas form our RSHE provision. Lessons are taught primarily by the class teacher of each year group and pupils usually take part in learning as a whole class. Teaching is carefully planned to ensure that content is age-appropriate, inclusive and sensitive to the needs of all pupils.

During Year 5 and 6, girls and boys are taught separately if appropriate.

If relevant and necessary, trained health professionals will be invited to support the teaching that has been led by the class teacher. Where such people are involved, they will be given a copy of this policy and they will be expected to work towards the objectives outlined within it.

We use the PSHE scheme Jigsaw as our main teaching resource and we have adapted its content and activities to suit our children. Other resources are used to support and enrich our RSE curriculum.

Appendix 1 outlines further what our children should know, through our Relationship Education, by the end of their time at Northwick Manor Primary School. This curriculum is statutory for all children at primary school. Children cannot be withdrawn from lessons in which Relationship Education is taught.

What do we teach when and who teaches it?

Whole-school approach

Jigsaw covers all areas of PSHE for the primary phase including statutory Relationships and Health Education. The table below gives the learning theme of each of the six Puzzles (units) and these are taught across the school; the learning deepens and broadens every year.

All Jigsaw lessons operate within the Jigsaw Charter, which is created with pupils at the start of each year. This establishes agreed ground rules so that pupils feel safe, respected and able to share ideas and questions appropriately when discussing sensitive topics.

Term	Puzzle	Key Content
Autumn 1	Being Me in My World	Understanding personal identity, my place in the class and school community, rights and responsibilities, democracy, making a positive contribution.
Autumn 2	Celebrating difference	Recognising and respecting diversity, challenging stereotypes, understanding difference and similarity, addressing bullying, building empathy and compassion.

Spring 1	Dreams and Goals	Setting and working towards goals, understanding aspirations and future possibilities, developing perseverance and resilience, recognising achievements, working collaboratively.
Spring 2	Healthy Me	The relationship between physical and emotional health; nutrition, sleep, exercise and hygiene; emotional wellbeing; drug education (including medicines); keeping safe; understanding habits and making healthy lifestyle choices.
Summer 1	Relationships	Understanding different relationships and their characteristics, our families, managing friendship challenges, conflict resolution and communication skills, recognising when relationships are unhealthy, understanding loss and bereavement.
Summer 2	Changing Me	Understanding life cycles and human growth, coping positively with change, body image and self-esteem, puberty education, changing relationships and for upper Key Stage 2, human reproduction.

At Northwick Manor Primary School we allocate 1 hour to PSHE each week in order to teach the PSHE knowledge and skills in a developmental and age-appropriate way.

These explicit lessons are reinforced and enhanced in many ways:

Assemblies and collective worship, praise and reward system, Learning Charter, through relationships child to child, adult to child and adult to adult across the school. We aim to 'live' what is learnt and apply it to everyday situations in the school community.

Class teachers deliver the weekly lessons to their own classes.

Clear parameters will be established in class and special consideration will always be given when teaching particularly sensitive material. Staff will be fully aware of the children in their class and how they might respond and access appropriate material to support.

6. Sex Education

We are required by law to teach Relationships Education and Health Education to all primary-aged pupils. We deliver these statutory subjects within our broader PSHE programme. Where we teach about human reproduction (sex education), we do so in line with the principles and approach of the 2025 Relationships, Sex and Health Education (RSHE) statutory guidance, in which sex education itself remains non-statutory (but recommended) in primary schools.

We teach age-appropriate sex education in Years 5 and 6 as part of our PSHE curriculum, going beyond the statutory content about puberty to include factual information about human reproduction. We believe this information is important for children before they leave primary school, particularly as children naturally become more aware and curious about how life begins, and may seek information from less reliable sources if we do not provide age-appropriate, factual teaching.

We define sex education as learning about human reproduction. It is defined as those lessons covering sexual intercourse, conception, the stages of pregnancy and birth. It includes the emotional impact of having a baby as well as the physical facts. Sex education is not learning about different types of sexual activity.

This is distinct from the statutory Health Education content about puberty and menstruation, and from Science curriculum content about life cycles and reproduction in mammals, from which children cannot be withdrawn.

The following Jigsaw lessons in the Changing Me Puzzle contain non-statutory sex education content:

Year 5: Conception

Year 6: Babies: Conception to Birth

Parent Engagement and the Right to Withdraw from Sex Education

Parents have the right to request that their child be withdrawn from some or all of sex education taught as part of PSHE. Parents do NOT have the right to withdraw children from:

- Relationships Education (statutory)
- Health Education, including puberty education (statutory)
- Science curriculum content, including content about reproduction (statutory)

Before making a decision to withdraw a child from sex education, we invite parents to discuss their concerns with the PSHE lead and Headteacher. This discussion helps us to understand the request and enables us to clarify the nature and purpose of the curriculum, discuss the benefits of the education, and consider any potential impacts of withdrawal on the child.

Where a parent requests withdrawal, we will:

- Arrange a meeting to discuss the request and the curriculum content in detail
- Share relevant teaching materials so parents can see exactly what will be taught
- Explain how we will support the child during withdrawal (ensuring they receive appropriate, purposeful education)
- Respect the parent's final decision whilst documenting our professional advice

We inform parents about sex education content by sending curriculum information emails at the start of the Summer term and making all materials available for viewing on request.

A withdrawal request form is available on page 14 in Appendix 2.

9. Policy Development

This policy has been developed in consultation with staff, pupils and parents. The consultation and policy development process involved the following steps:

Review – The PSHE Leads reviewed all relevant information, including but not limited to, relevant national and local guidance including regard to the school's obligations under the Human Rights Act 1998, the Equality Act 2010, (including the Public Sector Equality Duty), and their local multi-agency safeguarding arrangements.

The policy was drafted in accordance with statutory DfE guidance. The school curriculum plans were amended accordingly.

Staff consultation – school staff were given the opportunity to review the policy and make recommendations

Parent consultation – parents and any interested parties were invited to offer commentary about the policy.

Student consultation – students were consulted with using a selection of pupils in a pupil voice survey

Ratification – once amendments were made, the policy was published.

Policy review – this policy will be reviewed every year.

10. Our Partnership with Parents

At Northwick, we know parents are key people in the teaching of their children about sex and relationships. Most of a child's informal RSE occurs within the family and the school's programme complements and builds on this. We wish to build a positive and supporting relationship with the parents of our children through mutual understanding, trust and cooperation. Parents are consulted on the delivery of specific aspects of the delivery of RSE and they are invited to view material being used. They are also welcome to discuss any aspects of the programme of study with our staff.

As our RSE curriculum contains statutory content, all children must be taught certain aspects. Relationship Education is statutory, and parents do not have the right to withdraw their children from Relationship Education.

Parents do have the right to withdraw their children from the non-statutory components of Sex Education. This only includes content that is not part of the National Curriculum for Science or Health Education for primary schools.

Requests for withdrawal should be put in writing using the form found in Appendix 2 of this policy and addressed to the Headteacher.

The concerns of the parents and the possibilities of adjusting the programme or approach will be explored and any impact that withdrawal will have on the child will be discussed. Alternative work will be set for children who are withdrawn.

11. Roles and responsibilities

Trustees

The Trustees hold the Headteacher to account for the implementation of this policy.

Headteacher

- The Headteacher is responsible for ensuring RSE is taught consistently across the school
- Managing requests to withdraw students from non-statutory /non science components of RSE

PSHE Lead(s)

- The PSHE Leads are responsible for the overview and yearly evaluation of this policy, however all staff are responsible for ensuring this policy is implemented and acted on.

Staff

- Staff are responsible for delivering RSE in a sensitive way
- Modelling positive attitudes to RSE
- Monitoring progress
- Responding to the needs of individual students and
- Responding appropriately to students whose parents wish them to be withdrawn from the non-statutory/non science components of RSE

Pupils

- Pupils are expected to engage fully in RSE and when discussing issues related to RSE, treat others with respect and sensitivity

12. Equality

We promote respect for all and value every individual child and this is fully in line with the Equality Act 2010. All our children have an entitlement to this curriculum and our lessons are fully inclusive. We plan our RSE lessons to ensure the participation of all pupils, in line with our equality duties with regard to disability, gender reassignment, race and ethnicity, religion or belief, sex or sexual orientation.

Including LGBT Content

Throughout PSHE education, children learn that all people deserve to be treated with respect and kindness, regardless of difference. This is a fundamental principle that runs through all our teaching.

In teaching about families and relationships, we include same-sex parents alongside other family structures, presented naturally as one of the many different types of families that children may have or encounter. This content is integrated throughout the curriculum rather than taught as a standalone topic, ensuring that diverse families are visible and valued within our school community.

Children learn about treating others with kindness and respect, understanding that people have protection from discrimination and should be treated with dignity and respect, and that there are laws in place to protect people's rights. Pupils learn how bullying or discriminatory behaviour is never acceptable and how to report this for themselves or others.

Jigsaw PSHE 3-11 does not include content on gender questioning or transgender topics. Our focus at primary level is on teaching children to respect all people and to challenge stereotypes about what boys and girls can do, be, or achieve, without introducing complex concepts about gender identity.

For detailed information about what Jigsaw PSHE 3-11 teaches about LGBT relationships, schools can access our supporting document 'Including and Valuing All Children: What does Jigsaw PSHE 3-11 teach about LGBT relationships?' which provides specific examples from lessons and addresses common questions.

At Northwick Manor Primary School we promote respect for all and value every individual child. We also respect the right of our children, their families and our staff, to hold beliefs, religious or otherwise, and understand that sometimes these may be in tension with our approach to some aspects of Relationships, Health and Sex Education.

Inclusion

Our curriculum is inclusive and our RSE and Health Education is accessible for all students. High quality teaching that is differentiated and personalised will be the starting point to ensure accessibility.

As set out in the SEND code of practice, when teaching these subjects to those with SEND, we are mindful of preparing pupils for adulthood.

Northwick Manor Primary School is aware that some pupils are more vulnerable to exploitation, bullying and other issues due to the nature of their SEND. RSE can also be particularly important subjects for some pupils; for example, those with Social, Emotional and Mental Health needs or learning disabilities. Such factors will be taken into consideration in designing and teaching these subjects.

13. Monitoring arrangements

The PSHE lead, working with senior leadership, monitors PSHE provision through:

- Regular review of planning and teaching materials
- Learning walks and lesson observations
- Review of children's work and assessment information
- Pupil voice activities to understand children's experience of PSHE
- Staff feedback on confidence, resources and support needs
- Analysis of behaviour, wellbeing and safeguarding data
- Parent feedback through surveys and consultation

Monitoring enables us to celebrate effective practice, identify areas for development, and ensure consistency in quality across the school.

14. Training

The PSHE Leads audit the staff in their training needs and support is given during staff meetings, INSET day training and through peer-to-peer mentoring.

15. Safeguarding

Staff should refer any concerns that arise through the teaching of Relationship and Sex Education to the DSL in accordance with the school's Safeguarding and Child Protection Policy.

Further documents
